□ REPÚBLICA CHECA

NET Developer / Senior .NET Developer Number of posts

We have multiple open roles for Developers and Senior Developers. Would you like to work on World #1 network monitoring software? If you are interested in growing your skills in C# or JavaScript this position is the right for you. You will be working on Network Performance Monitor that provides easy insight into complex networks, wireless environments, and large data centers. And it is fully developed in Brno! What will you do? As a developer, your main responsibility will be to make sure the team produces quality code, both by writing it yourself and mentoring others. The job also involves design, testing and customer assistance. Verbal and written interactions in English with different audiences are daily routine. What will you use? As a .NET Developer, you will use mainly Microsoft Visual Studio as an IDE to work with C# backend code. Working with HTML5, TypeScript and Angular is also expected, but the frontend/backend balance is up to you. You'll need to work with MS SQL database, to adjust schemas or tune performance. Behind the scenes, we occasionally update Windows Installer or build scripts. <http://bit.ly/2YYDwDF>

Test Engineer / Senior Test Engineer

Your main responsibility will be to ensure product quality by creating and running manual and automated test scenarios. We expect test engineers to contribute to the automated test suite. Verbal and written interactions in English are daily routine. We value collaboration skills and expect you to cooperate as a team player. You will join a self-organized engineering scrum team, working according to the agile principles. What will you use? As a test engineer, you will use various network diagnostic tools. We use Gherkin (SpecFlow) for test specifications, and internal frameworks to run automated, performance or security tests. JIRA will be your ticket system for validating resolved issues. What do we expect you to know/have? We expect commercial experience in testing software, knowledge of scripting and coding automation tests. The experience with test automation tools.

You will need written and spoken English on communicative level.

PREGUNTAS FRECUENTES SOBRE CIUDADANOS ESPAÑOLES ANTE EL BREXIT

El próximo 31 de enero de 2020, el Reino Unido abandonará la Unión Europea.

La Unión Europea y el Reino Unido han negociado un acuerdo llamada 'Acuerdo de Retirada'. En base a este acuerdo, la legislación de la UE, incluida la libre circulación de personas y trabajadores, seguirá siendo de aplicación en el Reino Unido hasta el final del Periodo Transitorio. Dicho periodo se inicia el día después de la fecha Brexit, es decir, el 31 de enero de 2020, y acabará el 31 de Diciembre del 2020. Durante este periodo, los derechos de los ciudadanos de la UE en el Reino Unido permanecerán inalterados.
